Overview

Clinical Ethics: Debates, Decisions, Solutions

Ethical challenges facing health professionals have never been more important or more numerous. This program emphasizes themes in military medicine, traumatic brain injuries and sport, social medicine and pediatric bioethics, and professionalism. From end-of-life decision-making to ethical issues under the new Affordable Care Act, it is clear that bioethics – and bioethics education – must be assigned the greatest possible roles in the daily lives of individual professionals and their institutions.

Accreditation

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the University of Miami Leonard M. Miller School of Medicine and the Florida Bioethics Network. The University of Miami Leonard M. Miller School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

Disclosure and Conflict of Interest Resolution

All conflicts of interest of any individual(s) in a position to control the content of this CME activity will be identified and resolved prior to this educational activity being provided. Disclosure about provider and faculty relationships, or the lack thereof, will be provided to learners.

Credit Designation

The University of Miami Leonard M. Miller School of Medicine designates this live activity for a maximum of 6.0 *AMA PRA Category 1 Credits*.™ Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The University of Miami School of Nursing and Health Studies designates this seminar series for a maximum of 7.0 *CEU Credits*.

Continuing education credits for Psychologists, Social Workers, and Attorneys have been applied for. This activity may be used for continuing education credit for chaplains certified with the Board of Chaplaincy Certification Inc.

Program

Learning Objectives

Upon completion of this program, participants will be able to:

- Assess and reify the role and importance of bioethics in clinical and institutional decision making, especially regarding end-of-life-care, social determinants of health, health care worker satisfaction, the role and function of ethics committees and other topics.
- Identify and modify practice based on ethical challenges and issues in clinical practice, public policy, health law and the role of institutional ethics committees.
- Analyze and articulate ethically optimized solutions in clinical and public health contexts.

Target Audience

This course is designed for physicians, lawyers, nurses, social workers, clergy, psychologists, health administrators, philosophers and others with an interest or a need for continuing education in health ethics.
