DIALOGUES IN RESEARCH ETHICS

Dialogue 5

The National Bioethics Commission

Arturo Brito, M.D.

Department of Pediatrics, University of Miami

12:00 Noon, Friday, February 28, 1997
Rosenstiel Medical Science Building 3109

—————→ Lunch will be provided ←————

Established by Presidential Executive Order in 1995, with appointments by President Clinton in 1996, the National Bioethics Advisory Commission was created to provide guidance to federal agencies on the conduct of current and future human biological and behavioral research. Meetings so far have emphasized issues in genetics and human subjects protection. This Dialogue will feature a member's perspective on the Commission and its goals—and the likelihood of achieving them.

Dr. Brito, Medical Director of UM's Pediatric Mobile Clinic, is a member of the National Bioethics Advisory Commission and its Human Subjects Research Subcommittee.

Dialogues in Research Ethics is a series of monthly conferences. For more information about the series, phone 243-5723, write to Medical Campus Box M-825 or send E-mail to ethics@newssun.med.miami.edu
