

UNIVERSITY OF MIAMI/VA MEDICAL CENTER

DIALOGUES IN RESEARCH ETHICSDialogue 1**Corporate Sponsorship of Research**

Thomas R. Russell, Ph.D.
Coulter Corporation

Noon, Friday, October 18, 1996**RMSB 3109**

—————→ Lunch will be provided ←————

For-profit businesses play a large and important role in scientific research. Indeed, financial support from pharmaceutical companies, biotechnology firms and medical equipment manufacturers has become a crucial source of income for many investigators and their institutions. Reliance on such support raises questions about scientific independence, the social goals of biomedical research and potential conflicts of interest.

Dr. Russell, a former University of Miami researcher in Biochemistry and Medicine, is Director of Research and Technology, Biological Sciences, for the Coulter Corporation, a Miami-based international company specializing in biomedical instruments and reagent systems.

Dialogues in Research Ethics is a series of monthly conferences. For more information about the series, phone 243-5723, write to Medical Campus Box M-825 or send E-mail to ethics@newssun.med.miami.edu
