DIALOGUES IN RESEARCH ETHICSDialogue 2**Justifying Animal Research****Ray Moseley, Ph.D.***University of Florida College of Medicine, Gainesville***1 p.m., Friday, Oct. 3, 1997****VAMC Conference Room 207****(Research & Education Bldg., across from library)**

—————→ Lunch will be provided ←————

Animal research is justified in a number of ways, usually involving expected or potential benefits to humans. But to what extent may such research be supported by appeal to benefits to animals themselves, or to dubious uses of animals? While veterinary research provides the clearest examples of animal benefits, others are possible; research on animals used in sport and gaming, for instance, might enjoy a different level of support than other kinds. The spectrum of animal research justifications will be debated.

Dr. Moseley is Director of the Program in the Medical Humanities at the University of Florida College of Medicine.

Dialogues in Research Ethics is a series of monthly conferences. For more information about the series, phone 243-5723, write to Medical Campus Box M-825 or send E-mail to ethics@newssun.med.miami.edu
