

**DIALOGUES IN RESEARCH ETHICS**Dialogue 2**Stem Cell Research****Arturo Brito, M.D.***University of Miami and National Bioethics Advisory Commission***12 Noon, Friday, September 29, 2000****Rosenstiel Building 6018 (Pharmacology Conference Room)**

—————→ Lunch will be provided ←————

**The evolving public policy on stem cell research — just recently approved for some federal funding — straddles a variety of scientific, ethical, religious and other tensions. Along with the many potential medical benefits of stem cell research, the National Bioethics Advisory Commission (NBAC) and other entities are weighing issues ranging from when life begins to appropriate ways to use and dispose of human reproductive material.**

Dr. Brito, appointed by President Clinton to the National Bioethics Advisory Commission, is Coordinator of the University of Miami's Pediatric Mobile Clinic.

*Dialogues in Research Ethics is a series of monthly conferences. For more information, phone 305-243-5723, write to Campus Box M-825 or send E-mail to [ethics@miami.edu](mailto:ethics@miami.edu)*

**Sponsors:**
