

DIALOGUES IN RESEARCH ETHICSDialogue 4**Information Shortfall: Clinical Trials,
Computers and the Need to Know**

Charles Jaffe, M.D., Ph.D.
AstraZeneca Pharmaceuticals

12 Noon, Friday, Dec. 8, 2000
Veterans Affairs Medical Center, Room 207 (across from Library)

—————→ Lunch will be provided ←————

Computers are increasingly used — and touted as essential — for collecting research data. Indeed, computerized data capture in pharmaceutical research is reckoned to reduce error, improve patient-subject safety and speed drug development. But the relations among machines, subjects and investigators are complex and raise a variety of ethical issues.

Dr. Jaffe is Director of Medical Informatics at AstraZeneca Pharmaceuticals and chair of Clinical Information Systems for the American Medical Informatics Association.

Dialogues in Research Ethics is a series of monthly conferences. For more information, phone 305-243-5723, write to Campus Box M-825 or send E-mail to ethics@miami.edu
