

# DIALOGUES IN RESEARCH ETHICS

## Dialogue 8

# Ultra-Low-Temperature Storage of the Critically Ill

**Steven B. Harris, M.D.** *and* **Christopher Dougherty, Ph.D.**  
*Critical Care Research, Inc.* *Suspended Animation, Inc.*

**12 Noon, Friday, May 21, 2004**  
**Rosenstiel Building 3109 (Microbiology Conference Room)**

—————> Lunch will be provided <—————  
(No RSVPs required)

**This presentation will address research related to human cryosuspension (sometimes called “cryonics”). Issues include misconceptions about cryosuspension research, its scientific basis and its long term goal: development of a clinically reversible protocol for terminally ill patients so that they may eventually be available to receive medical attention.**

Dr. Harris, a gerontologist and internist, is President and Senior Scientist of Critical Care Research, Inc., in Rancho Cucamonga, California. Dr. Dougherty is Chief Scientist for Suspended Animation, Inc., in Boca Raton.

*Dialogues in Research Ethics is a series of monthly conferences. For information, phone UM Ethics Programs at 305-243-5723, send E-mail to [ethics@miami.edu](mailto:ethics@miami.edu) or visit [www.ethics.miami.edu](http://www.ethics.miami.edu).*

Co-sponsors:

- Vice Provost for Research
- Office of Graduate Studies
- Department of Microbiology and Immunology
- Friends of UM Ethics Programs
- Research Service of the Miami VA Medical Center
- S. Florida VA Foundation for Research and Education
- Department of Molecular and Cellular Pharmacology
- Mailman Center for Child Development
