

# DIALOGUES IN RESEARCH ETHICS

## Dialogue 3

# Research on Resuscitation: Medical Progress and Unintended Consequences

James Jude, M.D.  
*Miami*

**12 Noon, Friday, November 12, 2004**  
**JMH Diagnostic and Treatment Center (DTC), Room 259**

—————> Lunch will be provided <—————  
(No RSVPs required)

**In the half-century since cardiopulmonary resuscitation was devised, it has evolved from an experimental procedure designed to rescue near-drowning and near-electrocution victims to an ubiquitous intervention that has altered our view of death, dying and the limits of medical care.**

Dr. Jude was a co-originator of CPR in the mid-1950s while at the Johns Hopkins University. He since has held positions at the University of Miami School of Medicine (where he is now a Clinical Professor of Surgery) and other institutions.

*Dialogues in Research Ethics is a series of monthly conferences. For more information, phone UM Ethics Programs at 305-243-5723 or send E-mail to [ethics@miami.edu](mailto:ethics@miami.edu).*

Co-sponsors:

- Vice Provost for Research
- Office of Graduate Studies
- Department of Microbiology and Immunology
- Friends of UM Ethics Programs
- Research Service of the Miami VA Medical Center
- S. Florida VA Foundation for Research and Education
- Department of Molecular and Cellular Pharmacology
- Mailman Center for Child Development
